

Open Day

Theoretical Advances in Deep Learning

Monday, July 29, 2019

Demir Demirgil Hall, Boğaziçi University

Open Day Program

9:00-10:00	Keynote Talk: Anima Anandkumar, Caltech & NVIDIA Tackling Data Scarcity and Bias in Deep Learning
10:15-11:15	Tutorial I: Orhan Fırat, Google Neural Architectures for Text: What does practice say about the theory?
11:30-12:30	Tutorial II: Çağlar Gülcehre, DeepMind (over VC) Structure and Geometry of Neural Networks
12:30-13:30	Lunch & Reception
13:30-14:15	Lunch Seminar: Ksenia Tatarchenko, University of Geneva History of Computing and Artificial Intelligence
14:30-16:10	Crash Course I: Salih Durhan, D4C Mathematics Toolbox for Machine Learning
16:20-18:00	Crash Course II: Chiara Cammarota, King's College London Physics Toolbox for Machine Learning
